01 A small daily practice can make a big difference.

02 Choose a short video that you actually enjoy watching.

03 Listen to one sentence before you try to repeat it.

04 You don't have to understand every word on the first try.

05 Notice which words the speaker stresses, and where they pause.

06 Then say the sentence aloud, following the same rhythm.

07 If it feels difficult, slow down and try again.

08 Keep the original words, even when the grammar sounds informal.

09 That's a very, very important part of learning natural speech.

10 A clear page helps you focus on the next sentence.
